EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Clifford Davidson on 08/14/03.

The application has been amended as follows: On page 1 of specification under the title
insert paragraph:

**This application claims foreign priority to United Kingdom document 0026137.0
filed 10/25/2000.**

REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance: The instant application is drawn to a transdermal or percutaneous formulation which deters users from improper use, by including within the formulation, compounds which cause physical distress if injected, or otherwise ingested into the body. The compounds are non permeable through the skin in the transdermal or percutaneous form, yet if the composition is extracted and injected or ingested, they cause harmful and distressing effects to the abuser. The prior art, Granger et al (USPN 514,9538), discloses a transdermal formulation, which deters misuse, yet no distressing compounds are present. Granger merely uses antagonists that counteract the opioid. The present invention would produce an aversion to any further attempt at abuse of the formulation. Oral

formulations which cause distress upon abuse exists, yet these formulations show no motivation for a percutaneous or transdermal delivery formulation as described in the present application (Palermo (USPN 6,228,863)).

2. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
